At Solid Floor we are always looking for new and better ways to collaborate with our clients. As part of our new strategy we have now introduced Trade Accounts that not only give you advantageous discounts on our products and services but also give you access to a list of benefits to assist you even further with your projects.

Why Solid Floor?

No ordinary flooring company, Solid Floor is characterised by creativity, commitment and craftsmanship. We specialise in bespoke flooring, offering quality timber, carpet and rugs, all custom-made to the most exacting specifications.

With showrooms located in both Marylebone and Notting Hill, we have established a solid reputation as London's premier flooring specialists, we regularly collaborate with many of the UK's leading architects and interior designers in the UK and we have exported our timber to clients all over the world.

Most of our timber collections are FSC or PEFC certified both by the mill, and through our chain of custody standard.

Solid Floor looked at ethical timber manufacturing and identified that two of our timber mills, based in Europe and South America, were innovating in this area. We believe that our mills on-going investments and commitments to ethical practice will benefit us all and we are proud to be actively supporting them.

Why a trade account?

Once you have opened your trade account you will get access to:

- Your personalised discount structure
- Your own Account Manager and Project Manager
- Support and advice on drafting specifications
- Provision of floor set out drawings in DWG or Vectorworks
- Access to our colour matching and bespoke colour service
- Free delivery and pick-up of sample boards on loan within the M25
- Free delivery of hand samples

To open a trade account please fill the form and e-mail it to Rob@solidfloor.co.uk
