

# Oak Haven

---

Haven floors feature rustic French oak in a relaxed, contemporary style.

The brushed surface accentuates the wood's natural grain and movement, producing a balanced smart-casual finish.

This range provides the warmth and texture of real oak while delivering a contemporary aesthetic suitable for a wide range of interior designs.

Timber floors are easy to care for, please call us for further information on the best way to look after your floor.

Timber is a living material. A wooden floor, although no longer growing as part of a tree, is still very much part of its environment. As such, it responds to the light, temperature, humidity and wear to which it is exposed.

As the floor ages the colour of the wood will mellow and change. This is a natural process that occurs as the surface of the wood is exposed to oxygen in the air and to ultraviolet light from the sun. Painted surfaces, upholstery, furniture and rugs all undergo this same process over time.

After a number of years you may wish to have the floor surface sanded down and re-finished. You could then choose to re-oil the floor or have it stained first or even re-finished in lacquer.
